To Whom it May Concern:

Deutsche Bank Africa Foundation – Refilwe

Deutsche Bank has been associated with the Refilwe project for the past 6 years. We have a focus area of supporting orphans and vulnerable children, and we found in Refilwe an ideal partner to make a significant impact to alleviate the plight of these children.

We have found that the passion and dedication shown by the staff and leadership of Refilwe has been an inspiration and encouragement to Deutsche Bank its staff. The impact and sustainability of projects is a high priority for us and Refilwe has certainly delivered and met all our criteria for quality.

The current location is testament to their success and dedication. Having witnessed the move from the previous location, the current infrastructure and services are nothing short of a miracle.

I can therefore unreservedly put forward the credentials of the Refilwe project and their ability to maximise the use of funding for the benefit of the children.

Kind regards

Colin Brown
