To Whom it May Concern

Protech Khuthele- Refilwe

Protech Khuthele has been associated with the Refilwe project for the past year. We focus on supporting orphans and vulnerable children, and we found that Refilwe is a suitable partner to make an impact to alleviate the plight of these children.

The drive and dedication shown by the staff and leadership of Refilwe has been an inspiration to the staff of Protech Khuthele. The impact and sustainability of projects is a priority for us and Refilwe has certainly delivered and met all the criteria for quality.

I can therefore put forward the credentials of the Refilwe project and their ability to use the funding for the benefit of the children.

Kind Regards

pp
